

**RUT-25-E Fleet Exemption Schedule**

(R-4/12)

Read this information first

You may file this schedule only if you file Form RUT-25, Vehicle Use Tax Transaction Return, and wish to report **the purchase, from an out-of-state retailer**, of more than one vehicle, watercraft, aircraft, trailer, or mobile home **for use as qualifying rolling stock**. For all purchases reported on this schedule, **the purchase date and date brought into Illinois must be the same and the type of item listed must be the same kind** (for example, you may report 15 vehicles or 15 trailers on the same schedule but not 10 vehicles and 5 trailers). If you meet these requirements, you may file this schedule to avoid the additional paperwork involved in filing a separate Form RUT-25 for each item. If you file this schedule, you must attach it to a single Form RUT-25. Complete all sections of the RUT-25 except the identification number, year, make, and model. Instead, in that area, write "See attached schedule." This single schedule permits you to report the purchase of up to 16 items of qualifying rolling stock on one RUT-25 return. If you want to report the purchase of more than 16 items, use additional copies of this schedule.

The multiple purchases that you report on this form must be **purchases of qualifying rolling stock from a single out-of-state retailer, be the same kind of item, and have the same purchase date and date brought into Illinois**. Otherwise, you must report each purchase on a separate Form RUT-25.

Section 1: Complete the following tax information

Write the motor vehicle return number preprinted at the top of your Form RUT-25 **MV** _____

Section 2: Complete the following information on the items purchased

Identification number (VIN, HIN, N)	Make	Model	Year	Purchase Price
